INSPIRATION

Lattice was inspired by the lattice work found on traditional Chinese screens. neri&hu took a section of a traditional pattern, altered its scale and reinterpreted its form.

MATERIALS

Lattice is available in solid brushed brass with a clear lacquer and hand-blown coloured glass globes in a choice of grey, blue or pink.

CONFIGURATIONS

Lattice is available in a choice of three fixed drop lengths, measured from the ceiling to the furthestmost point of the light. Drop lengths are 110cm, 140cm or 207cm (43 1/3", 55 1/8" or 81 1/2")

INSTALLATION

Installation of Lattice is straightforward, the main brass body shipping as a single piece.

A halogen G9 Eco bulb (max 18W) fits into the end of each arm, followed by a frosted glass diffuser, then a coloured glass globe. There are two large globes and one small globe, the smaller globe intended for the bent arm of the light.

Detailed installation instructions are available.
