MONDO PENDANT BY ANTONIO FACCO AFMO2003

# M O N D O

ANTONIO FACCO

Mondo pendant has a classic soul but contemporary ambitions. It combines a planetary physical image with an abstract concept of originality programmed by the beholder. The possibility of interacting with the lamp offers the user an infinite dialogue. The overlapping patterns controls the luminous effect through the movement of the metallic stratifications whose perception changes according to the setup.

ANTONIO FACCO (Italy)

TRAPEZE PENDANT BY JETTE SCHEIB JSTR2003

# T R A P E Z E

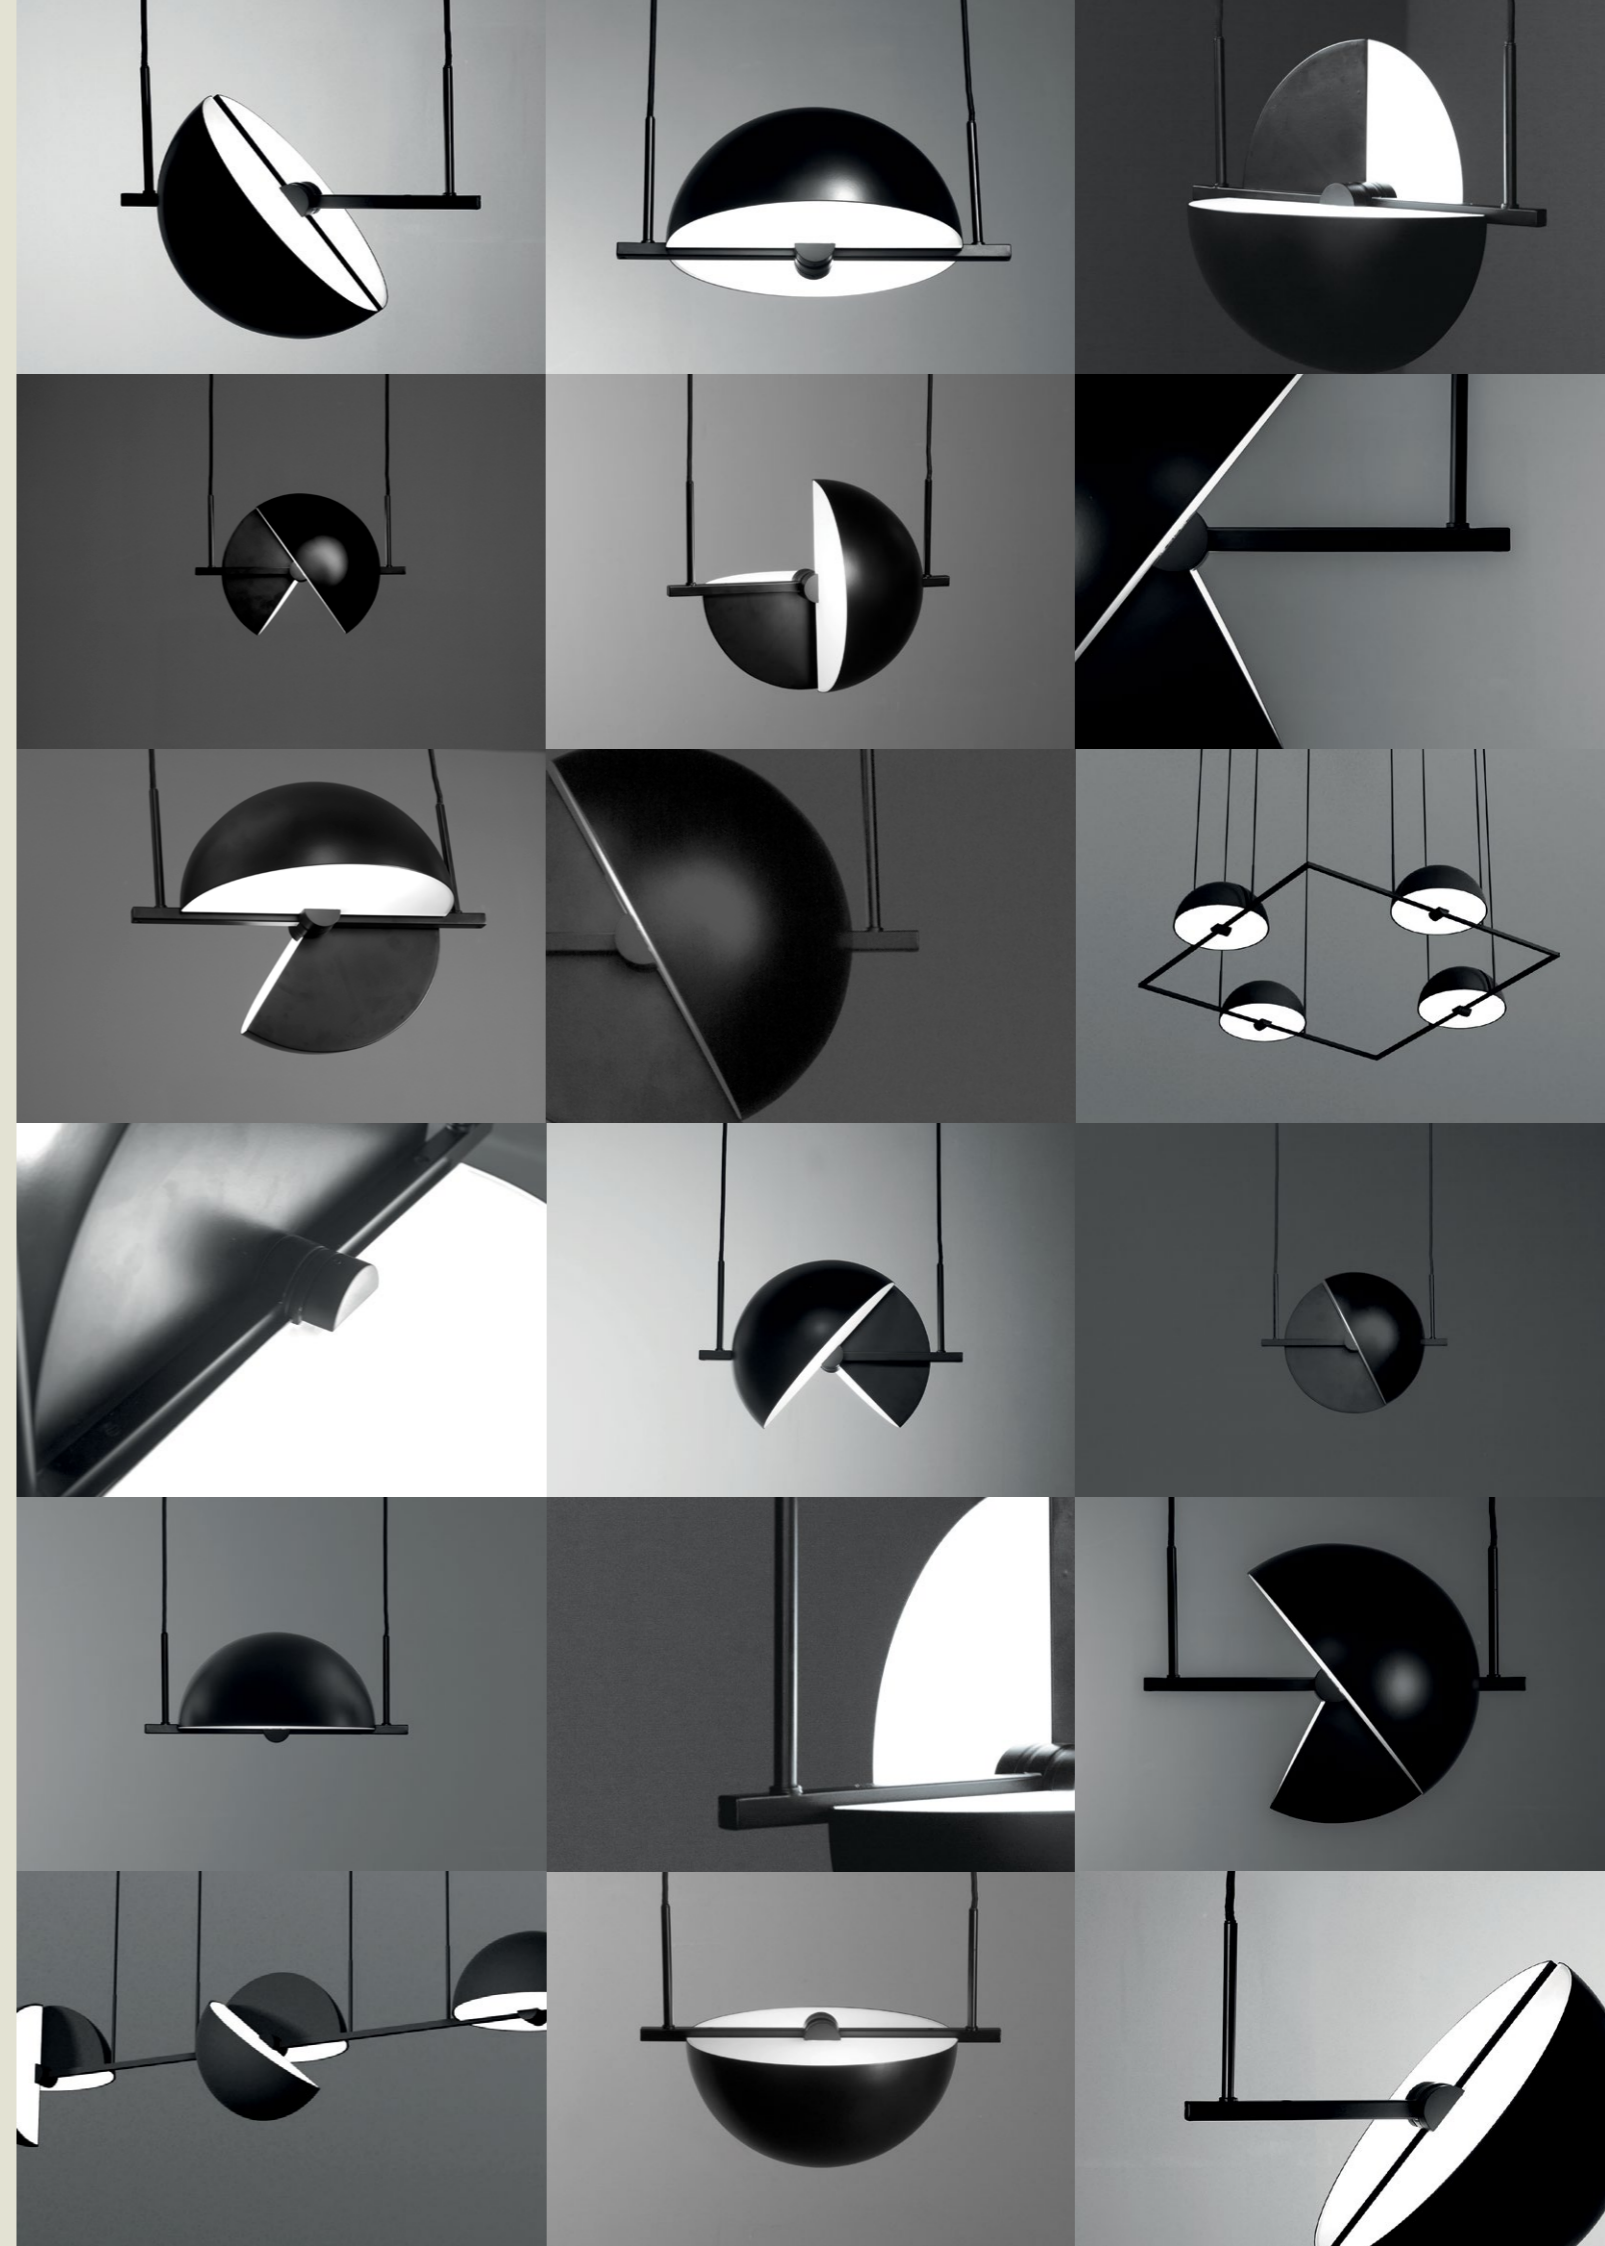

JETTE SCHEIB

Trapeze is a true artist, an aerialist combining grace and style. Fixed in a single pose with endless possibilities. The solitary performance can be extended to a group by connecting the lamp with one, two or more. The construction allow the user to combine uplight and downlight at the same time.

JETTE SCHEIB (Germany)

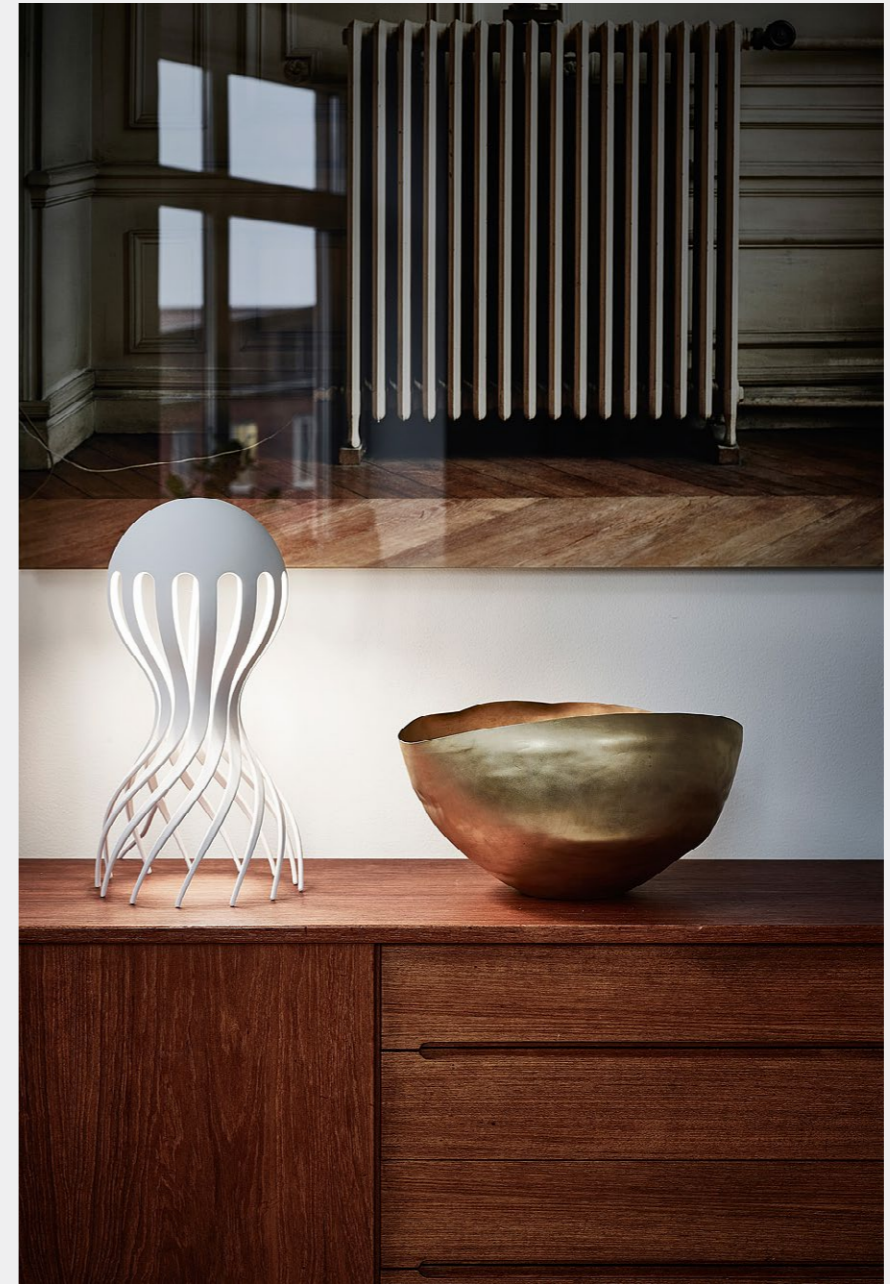

CIRRATA TABLE LAMP BY MARKUS JOHANSSON MJC11002

# C I R R A T A

MARKUS JOHANSSON

Unexpected experiences and surprises wait deep down on the ocean floor: a body with many arms, which sweeps along and lights up the depth. Arrogant and presumptuous, there is no doubt about who is the ruler down here.

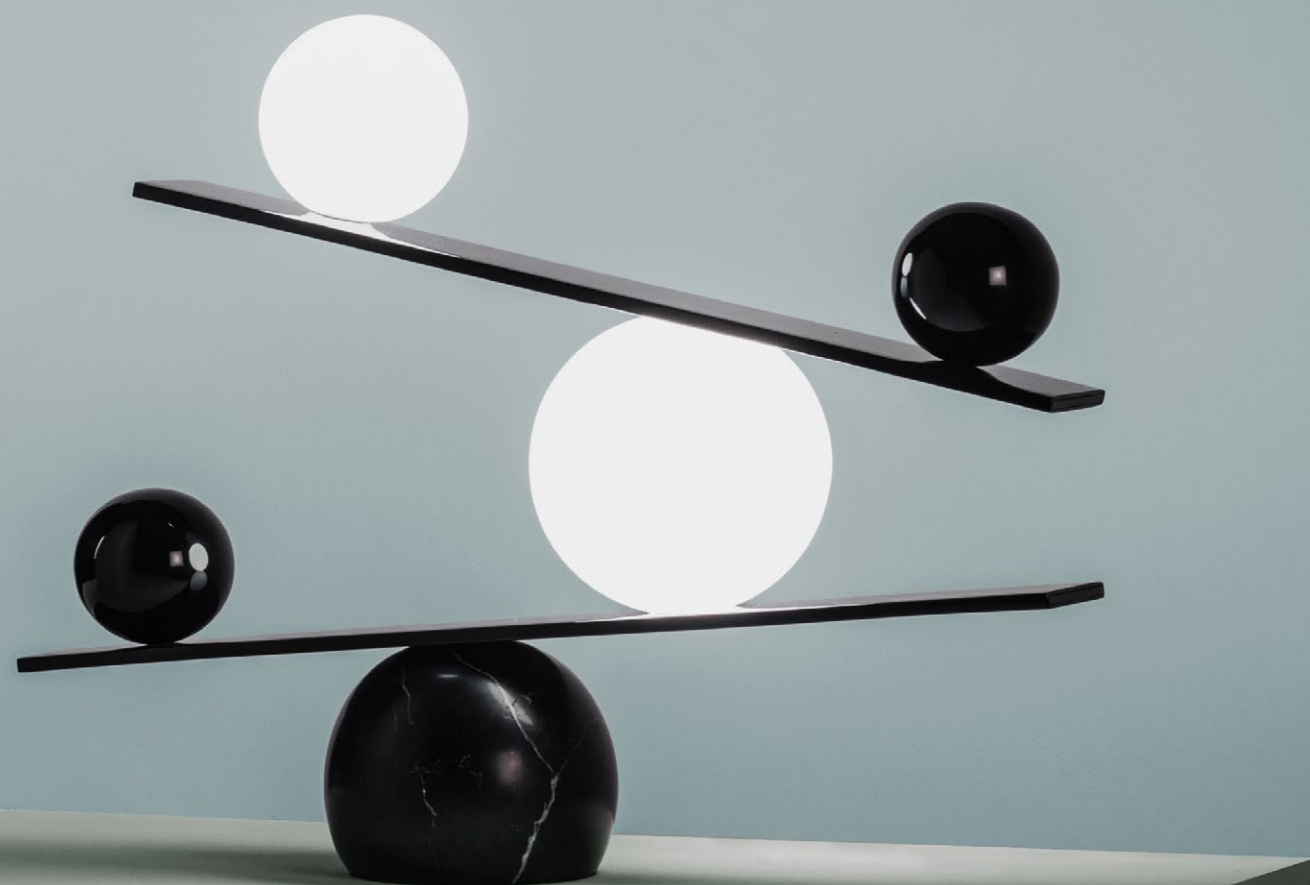

A lonely but never the less unafraid character with forms born out of the resemblance to other inhabitants of the deep depths. The character is "Cirrata", a glowing lamp in the darkness of the ocean.

MARKUS JOHANSSON (Sweden)

# BALANCE

VICTOR CASTANERA

BALANCE TABLE LAMP BY VICTOR CASTANERA VCBA1003

The fixed impossible position of the orbs is an expression of the fragility of existents. All entities move and nothing remain still. Balance is a play with the concept of time – everything is in motion. The Balance table lamp is Victor Castaneras first product for Oblure.

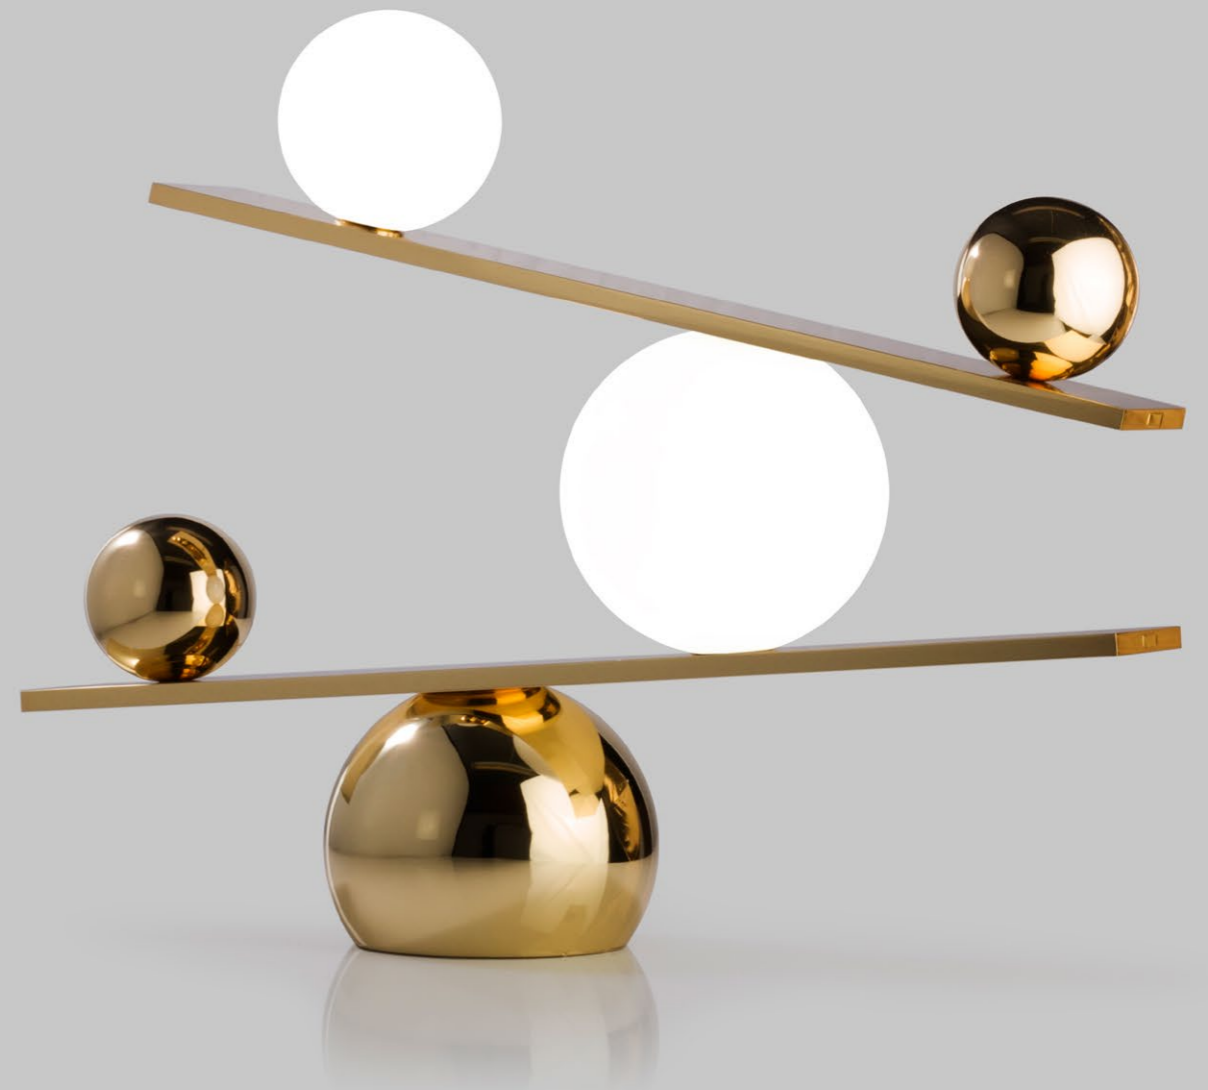

The unique construction allow the user to replace the cusom LED bulbs.

Balance in plated brass with  
steel base and opal glass.

VICTOR CASTANERA (Spain)
