**utua**®

# welcome to our world

---

*utu - soulful lighting* is the response to an urge to create lighting solutions that enrich spaces with individuality and meaning.

The experience of spaces and the feeling created has the huge contribute of lighting, as it contributes to its atmosphere and appearance.

Born from the creative hub mambo unlimited ideas, that comprises design talents in a team dedicated to develop new products and ideas, utu soulful lighting is the new brand specifically dedicated to lighting, where this dimension of design is tirelessly explored and developed.

Presenting a wide lighting collection with different concepts and functional solutions which includes suspension, table, floor and wall lamps in a wide range of possible finishings, utu launches as a very versatile and complete brand.

Already mature as being heir of the experience and knowhow acquired while under the mambo unlimited ideas label, utu soulful lighting follows the market call. It builds an individual space in the company scope for the continued growth of the lighting collection, with the same base values but with a soul of its own!

So we welcome you to our world! A world where innovation, creativity, quality and reliability are the guidelines. We produce original top quality products - our work is developed towards global business, with international inspiration, while rooted in our local knowledge and crafts expertise.

The growing presence we conquer in the international market reflects our approach and our reputation: we offer original quality products and a professional team ready to collaborate with professionals worldwide.

*utu - soulful lighting*, light devices with soul in a wide range of finishings: endless possible combinations.

# H10 Duque de Loulé

Floor lamp Comb results as a suspended light jewel, standing on its discreet base, drawing delicate light and shade shapes. Comb floor lamp appears at the banquet room at H10 Duque de Loulé Hotel, bringing a touch of modernity and design to this otherwise classical room.

## Junqueira Residence

Star is a lampshade collection made of polished brass. Our goal was to create a lamp filled with personality that could fit in a wide range of environments. Seducing, this asymmetrical floating structure, with its rich linen lampshade, is a sculptural piece that brings a touch of poetry to spaces. The unpredictable geometry gives the Star lamp many different facets, from each perspective that it is observed.

Roof Design Studio project  
Holland

**iSight  
Partners**

Up lamps combine classic with original style. A rhythmic lacquered metal mesh makes these pieces surface textured and the light results soft and comfortable filtered by the cotton lampshade. At iSight Partners office in Amsterdam, a space with a cosy irreverent feeling is accomplished with these lamps.

## Spider collection

Spider collection is a complete lighting range, from suspension to wall lamps, which design plays with shape and transparency. The different suspension sizes available result in very different pieces, not only regarding sizes but also formats. The wall, floor and table lamps are surprising, shapes inspired in a section of the suspension lamp, adding a complete new concept to this collection.

# Junqueira Residence

\*design by Cláudia Melo

01

Extrude lamps are joyful and irreverent, with their uncommon shapes and bases. Here featured at a Lisbon residence, the Extrude floor shows its tripod base, which makes this lamp streamlined and original.

## Antemare Hotel

Born form the Spider collection, New Spider is enriched with a lacquered metal, brass or copper detail at its base. The resulting combination of different colors and materials transforms these lamps in pieces with their own personality. Here they are featured at the entrance of Antemare Hotel in Sitges.

## Coriander Leaf

New Spider are unique lamps that bring light movements into spaces. The light projects through the revolving structural elements, in a dance between light and shade. Scenographic, they bring character to spaces, as seen here at restaurant Coriander Leaf in Singapore.
